To Receive Nonresident License Applications, Call Toll Free:

1-800-635-7820

If you buy a nonresident license this year, you will automatically receive an application form for the following year. Applications will be mailed in November.

To Buy a License, Tag or Permit:

- In person, go to any Idaho Fish and Game office or license vendor throughout the state.
- By credit card, within the United States call **1-800-554-8685**. Outside the U.S., use the Internet or mail.
- On the Internet, go online to **<https://id.outdoorcentral.us/>**. A service fee is added for this transaction.
- Commercial licenses, duplicate tags, documents that require proof of disability, lifetime licenses, and bear baiting permits may be purchased only at Fish and Game offices.

Información Importante

Este libro incluye información importante acerca de las leyes de pesca de Idaho. Por favor, encuentra alguien que lee Inglés explicar la información en este libro para usted.

You may refer to this link for laws pertaining to this rule book:

Administrative Procedures Act:

adminrules.idaho.gov

PLEASE NOTE: THIS BOOKLET IS BASED ON INFORMATION ACCURATE AT THE TIME OF PRINTING, BUT ACCESS SITES LISTED MAY HAVE CHANGED.

FOR THE MOST UP TO DATE INFO, VISIT OUR WEBSITE:

IDFG.IDAHO.GOV/IFWIS/FISHINGPLANNER

Idaho is a land blessed with diverse outdoor opportunities. It is a place where public access to rich wildlife and fisheries resources is an important part of the outdoor experience; a place where there is truly something for everyone.

This brochure is designed to help you take advantage of those opportunities. It will guide you to over 300 fishing and boating access sites. Amenities and facilities are listed for each site, and those sites accommodating persons with disabilities are noted. Listings for the allowable and available recreational uses are also found here. This brochure is organized into seven regions covering the entire state.

To find a specific area, read the site description and look at the regional map. As you travel to the area chosen, you'll find a sign along the road marking each site. If you need help finding the site, call the closest regional office.

Idaho Fish and Game adheres to all applicable state and federal laws and regulations related to discrimination on the basis of race, color, national origin, age, gender, disability or veteran's status. If you feel you have been discriminated against in any program, activity, or facility of Idaho Fish and Game, or if you desire further information, please write to: Idaho Department of Fish and Game, P.O. Box 25, Boise, ID 83707 OR U.S. Fish and Wildlife Service, Division of Federal Assistance, Mailstop: MBSP-4020, 4401 N. Fairfax Drive, Arlington, VA 22203, Telephone: (703) 358-2156. This publication will be made available in alternative formats upon request. Please contact the Department of Fish and Game for assistance.

Idaho sportsmen have provided the funding to obtain and manage many of these access sites through their purchase of hunting and fishing licenses and tags. Other sites are managed and maintained under cooperative agreements with counties and other land management agencies. Funding for the access program also comes from excise taxes paid on hunting and fishing equipment and redistributed to each state by the Federal Assistance program of the US Fish and Wildlife Service. When using one of these sites, please respect the property rights of adjacent private landowners, and keep the sites clean by removing all litter. All of the areas are pack it in, pack it out. These access areas are critical resources for hunters, anglers and outdoor enthusiasts. As Idaho grows, they will become even more important. If you are hunting or fishing, don't forget to pick up a copy of the latest regulations.

We hope this publication will make it easier for you to get outside and experience Idaho's many recreational opportunities. Enjoy yourself!

To reduce disturbances to wildlife, provide for equitable use of public access areas, and protect property owned or controlled by Idaho Fish & Game, the following rules have been established:

CAMPING

Camping is allowed on many access areas but is limited to no more than 10 days within a 30 day period. More restrictive camping limits may be posted in some areas. Unattended vehicles are limited to no more than 48 hours.

CAMPFIRES

All fires must be attended or may be prohibited when fire danger is high. Signs will be posted if a fire closure is necessary.

VEHICLES

Use of motorized vehicles, including snowmobiles and all-terrain vehicles, is permitted only on designated roads. Operation of vehicles on established roads is prohibited when posted against such use.

FIREWORKS

The use of any form of fireworks or explosives on Fish and Game lands is strictly prohibited.

BOATING

Some areas have restrictions on the use of boat motors or floating devices. Be sure to consult current fishing rules.

PETS

Dogs must be kept on a leash or under close control at all time except for bird dogs during hunting seasons.

The release or abandonment of domestic animals is prohibited.

HUNTING AND FISHING

Hunting and fishing are allowed on some management areas and access sites. However, because specific rules for these activities change from year to year, it is important to consult current hunting and fishing rules brochures.

Be careful not to discharge any firearm within or across posted “safety zones”.

ADA ACCESS

Facilities that comply with the Americans with Disabilities Act requirements for persons with disabilities are available in some areas.

TAG! YOU'RE IT!

What to do if you catch a tagged fish:

Contact IDFG with this information:

- Tag number(s)
- Did the fish have two tags?
- What day you caught the fish
- What species it was
- Fish length
- Did you keep or release the fish?
- Did you keep the fish only because it was tagged?
- If you released the fish, did you leave the tags on it?
- What did you think of the quality of this fish?
- What did you think of the quality of your fishing experience the day you caught this fish?
- Your name, address and phone number

Report tags to: Tag.idaho.gov
 Hotline (toll free): **1-866-258-0338**

Ethical fishing is as much about common courtesy as it is about following the regulations. Anglers can improve the experience shared by everyone by following these simple rules.

PLEASE DON'T LITTER.

Pick up after yourself and others. Remember that discarded fishing line is litter too. Leave your fishing location cleaner than you found it.

DON'T CROWD OTHER ANGLERS.

Be sure to leave enough space between your fishing area and other anglers to avoid line tangling and other conflicts. This is basic courtesy that should be observed by all anglers on all streams, rivers, lakes and reservoirs.

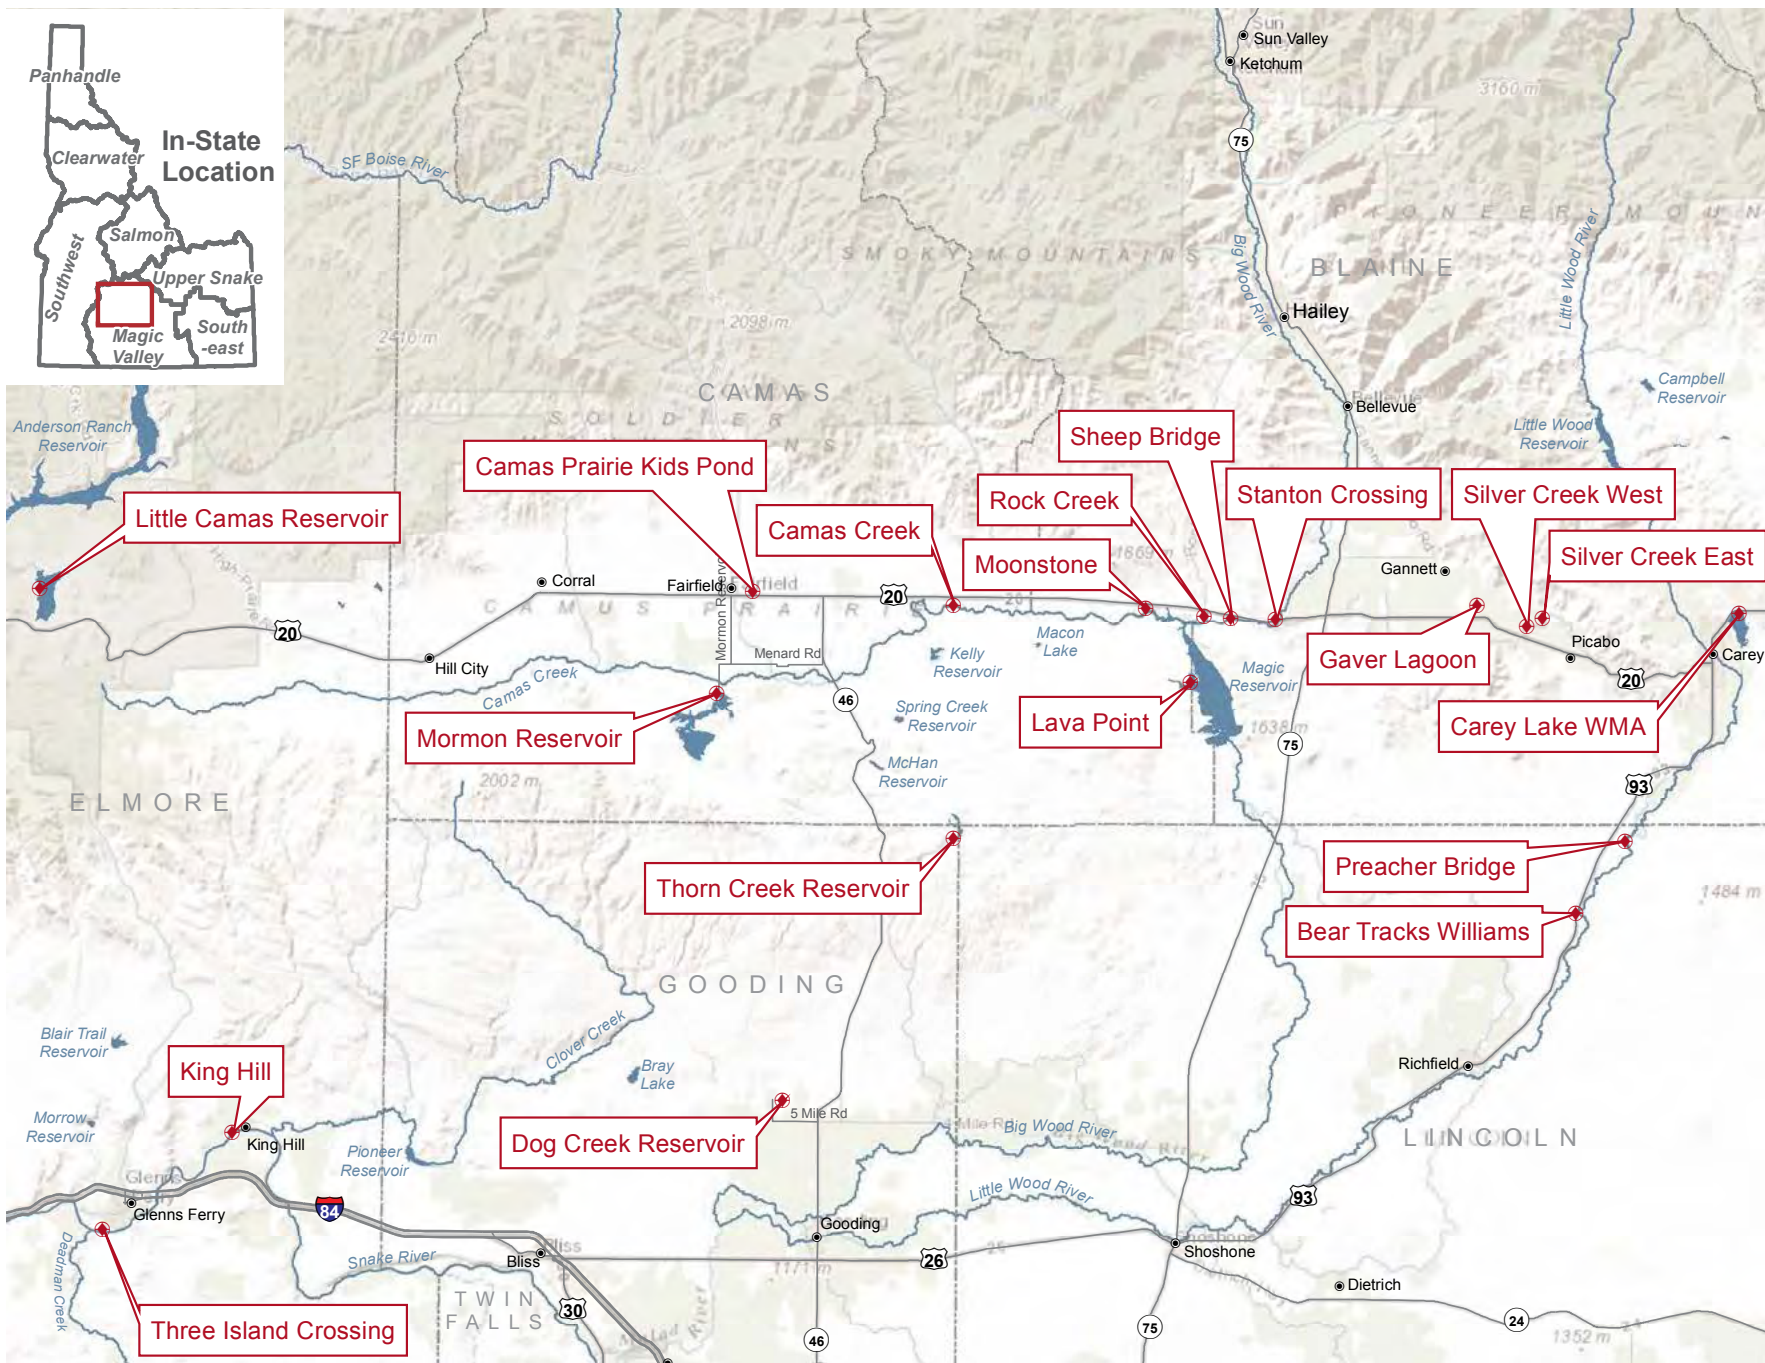

RAMP ETIQUETTE.

Popular boat ramps can become crowded quickly on weekends, and the potential for conflicts can occur. Use the proper lanes for loading and unloading. If possible, load your boat before arriving so you can launch quickly and move your vehicle and trailer to clear space for the next group. Boat anglers should also be conscious of their boat's wake, especially around anchored boats, docks and wading anglers.

ASK PERMISSION.

Always ask first before entering private land and treat the property as if it was your own. Idaho's trespass law is very clear. No person may enter private land to hunt, fish or trap without permission. If the land is either cultivated or posted with legible "no trespassing" signs.

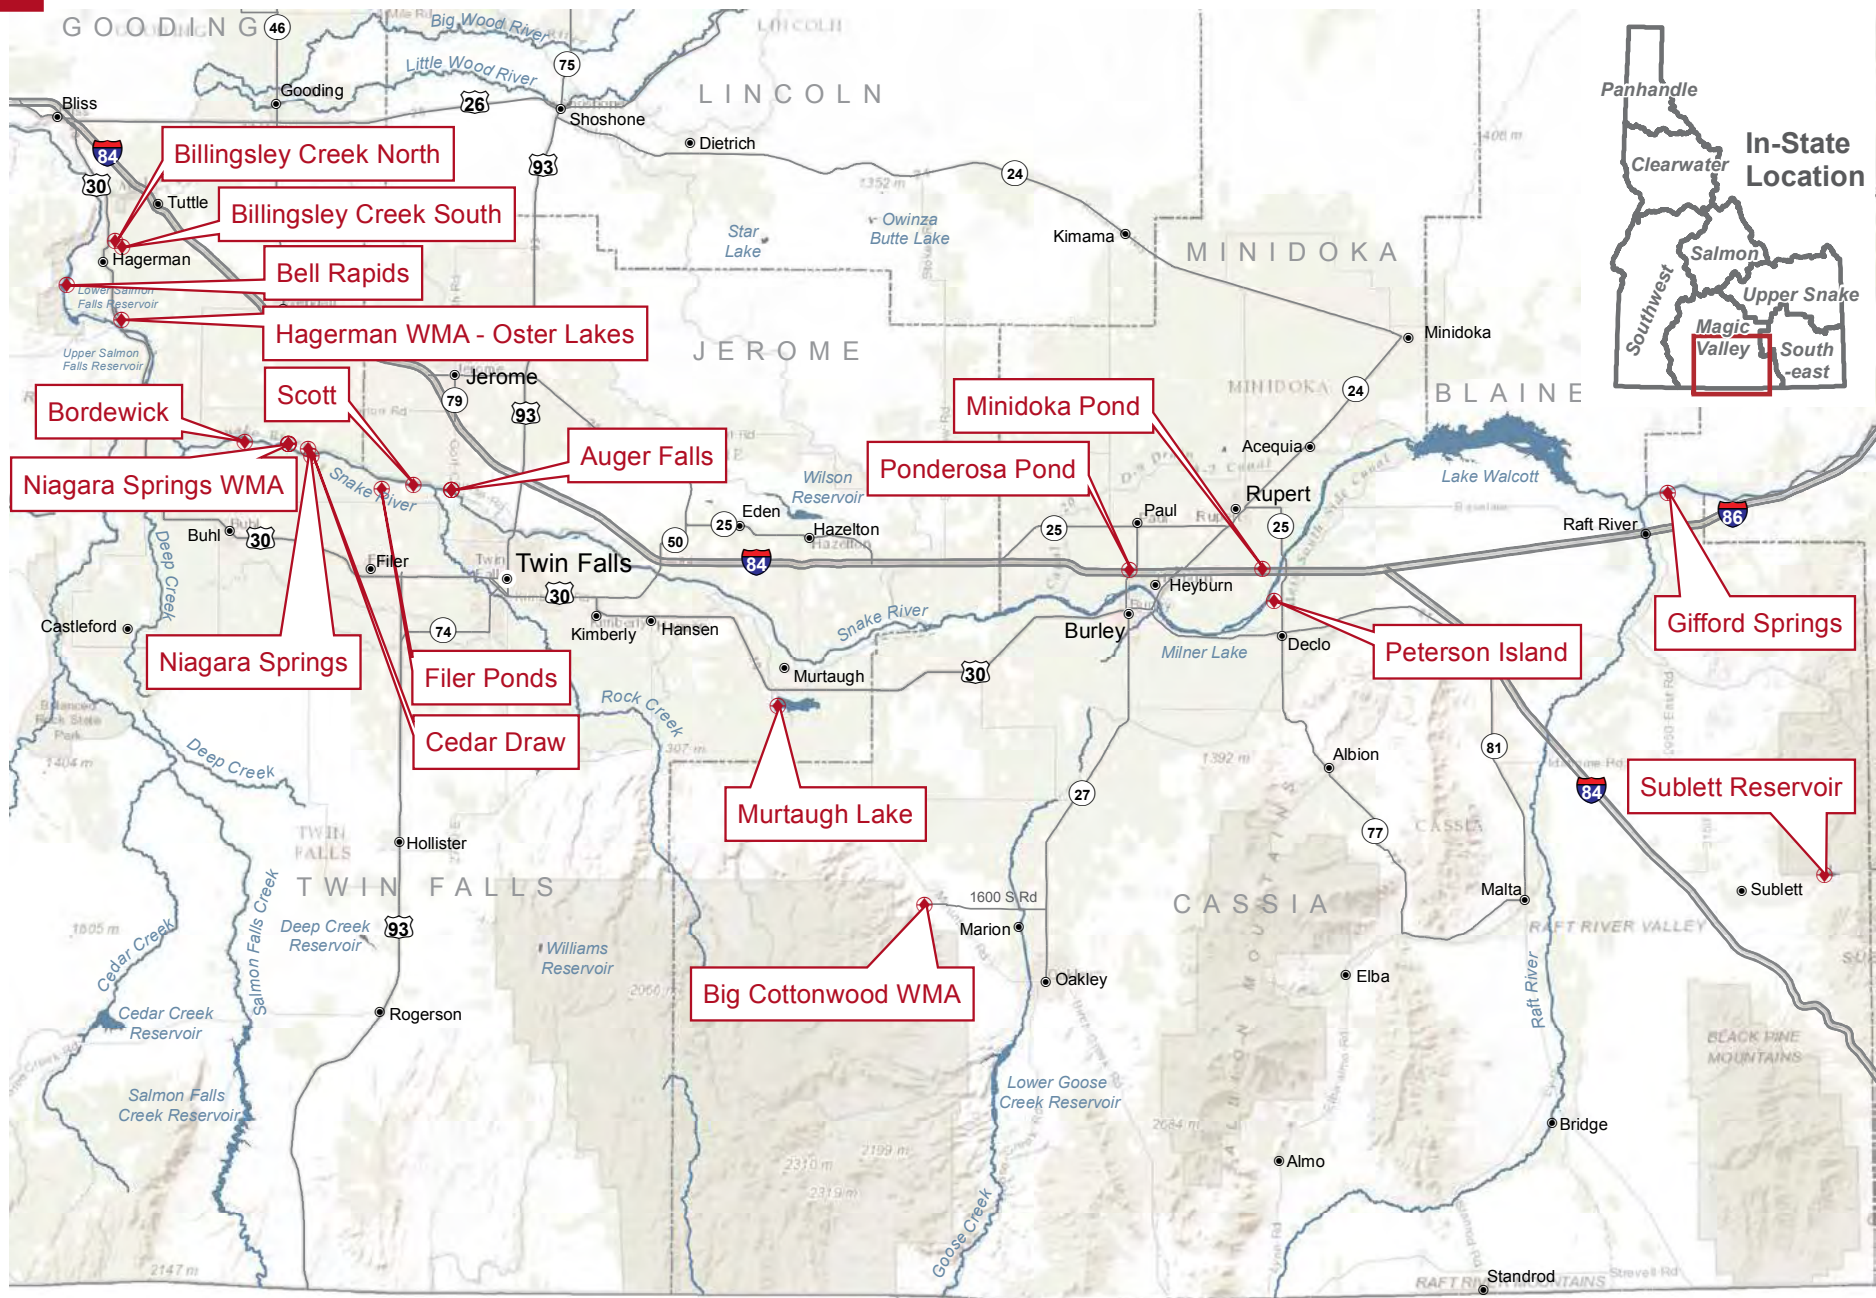

Proper posting includes lettered signs or 100 square inches of fluorescent orange paint or an entire fluorescent orange metal fence post located every 660 feet around the property and at reasonable access points. In Idaho, a trespass conviction includes a mandatory one-year license revocation.

Idaho record fish harvested in this region include the number one Cutthroat Trout, Idaho's State Fish, taken at Bear Lake. Idaho's number one Rainbow-Cutthroat hybrid was caught in American Falls Reservoir, with the state record Rainbow Trout taken in the Snake River just above the reservoir.

Whether fishing, hunting, hiking, boating, or simply viewing wildlife from your own backyard, all Idahoans have the opportunity to enjoy Idaho's rich wildlife diversity.

Each purchase or renewal contributes a portion to Idaho's wildlife:

Anglers come from far and wide to experience trout fishing in some of the most pristine waters in the United States including Henry's Lake, Henry's Fork and South Fork of the Snake rivers.

ATTENTION BOATERS—WE NEED YOUR HELP!

Be on the lookout for Eurasian watermilfoil!

A nasty invasive deadly plant that's on Idaho's "noxious weed list"

Eurasian Watermilfoil:

- Interferes with water-based fun
- Clogs boat and jet ski motors
- Entangles fishing, swimming and water skiing sites
- Destroys habitat for waterfowl, fish and other wildlife
- Damages water quality
- Impacts power generation and irrigation by clogging dam trash racks and intake pipes
- Provides stagnant water for breeding of mosquitos

You can prevent the spread of this noxious weed:

- Clean boats, trailers and jet skis before entering and after leaving the water.
- Dispose of the weed by placing it into the nearest trash receptacle.
- The six areas that you need to clean are shown in the drawing to the right.

What to do when you see this weed:

- Do not pull it. You may simply spread this weed if you pull it out of the water. A piece of this plant the size of a postage stamp can sprout and grow an infestation of weeds.
- Contact your local county weed superintendent listed under County Government in the phonebook.

The Salmon Region has 5,057 miles of flowing water, numerous high mountain lakes, and 32 lowland lakes, reservoirs and ponds, of which 11 are Family Fishing waters.

Headwaters to the “River of No Return,” the Salmon River is one of the few undammed waterways left in America.

Navigability And Public Access

(Refer to Idaho Code 36-1601)

Navigable streams are defined as any stream which, in its natural high-water condition, will float logs or any other commercial or floatable commodity, or is capable of being navigated by oar or motor propelled small craft for pleasure or commercial purposes. Navigable streams are recognized as public transportation corridors, thus members of the public have the right to use the corridor, provided they enter and exit the corridor at a public right of way, and remain within the corridor. Many navigable streams flow through private property, thus it is important that anglers know their rights and responsibilities when fishing in navigable waters that flow through private property.

When fishing in navigable streams bordered by private property:

- You must stay within the normal high-water marks of the stream, unless you have landowner permission to get out on the bank, or have no other means of getting around an obstruction in the stream (such as a fence or diversion dam).
- When getting outside of the stream to go around an obstruction, take the shortest, most direct route around the obstruction to get back in the stream.
- Do not allow pets or children to trespass on adjacent private property, without landowner permission.
- You may enter and exit navigable streams at other public rights of way, such as county road bridges.
- **ASK FIRST!** Always get landowner permission before crossing private lands outside of a public right of way.

Channel Catfish

Walleye

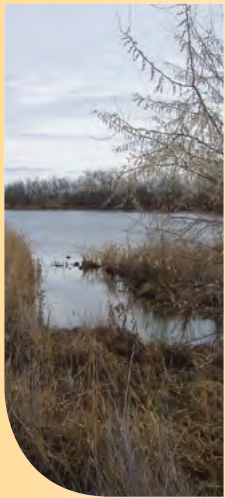

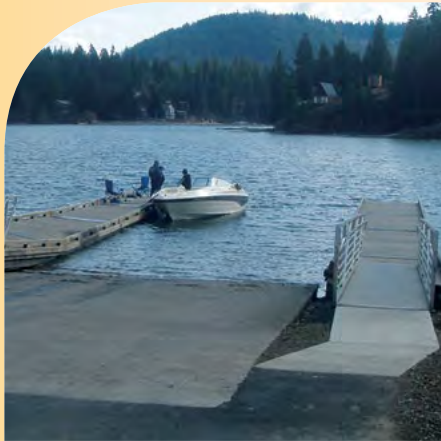

Yellow Perch

Looking for a new place to go fishing?

Idaho's Fishing Planner is an interactive tool to explore and plan your next fishing adventure.

- Anglers can use any combination of criteria to search by location, fish species, access, facilities, or type of fishing experience.
- Interactive maps of waters, plus information about stocking, game fish, and rules.
- See what river sections will open for salmon fishing, when they will close and more.
